

California Department of Public Health Preventive Medicine Residents 2014-2016

Dr. Sona Aggarwal completed residency in Primary Care Internal Medicine at UCSF/San Francisco General Hospital in 2005. Since then she has worked in primary care and hospital medicine in Bay Area county health systems. In 2008, she joined healthcare services in the California Department of Corrections at San Quentin where she served as Director of Quality Improvement and staff physician. Through that experience she honed skills in quality improvement and population health management using registry-driven metrics. She now returns to training in the Preventive Medicine Residency program to further explore interests in health system management and public health. During the PGY2 training year Sona completed a Masters of Public Health in the Health Policy & Management track at UC, Berkeley. She has been placed at the San Francisco Department of Public Health, Population Health Division.

Stipend and tuition supported by the Public Health & Health Services Block Grant. Preceptors – Dr. Tomas Aragon and Dr. Cora Hoover

Dr. Andrea Garcia earned her MD/MS degrees from the UC Berkeley-UCSF Joint Medical Program in 2013. She completed an internship in Internal Medicine at White Memorial Medical Center. Prior to medical school she spent two years in the National Institutes of Health Academy where the primary objective was training on health disparities. Her research interests include chronic disease prevention, health policy, and particularly issues pertaining to the health of American Indian and Alaska Native (AIAN) communities. Her former projects have examined AIAN injury prevention and the intersection with public laws, AIAN adult vaccination rates, and the health of American Indian Elders in California. Her goals include a career in public health and health policy that addresses the needs of underserved populations, and increasing the number of underserved minority physicians. Andrea has been placed in the Los Angeles County Department of Public Health within the Division of Chronic Disease and Injury Prevention.

California Department of Public Health Preventive Medicine Residents 2011 thru 2013

Dr. Julia Logan completed her training with the program in June 2013. Her PGY3 placement sites were the Department of Health Care Services and the Sacramento County Health Department. Julia joined the program in 2011 and completed her PGY2 year through UC Davis, obtaining a Masters in Public Health degree and clinical experience with the CommuniCare Clinic in Davis. Prior to joining the Preventive Medicine Residency, Julia graduated from Northwestern University with a degree in American Culture, and received her MD from Drexel University College of Medicine. After completing her residency training in Family Medicine, she practiced as a primary care physician within a group practice in Sacramento, CA. Her area of focus during her PM residency was addressing health inequities in colorectal cancer prevention and the quality of care in Medi-Cal.

*Stipend and tuition supported by a grant awarded to the Preventive Medicine Residency Program and the University of California, Davis, by the U.S. Health Resources and Services Administration.
Preceptors - Dr. Olivia Kasirye and Dr. Neal Kohatsu*

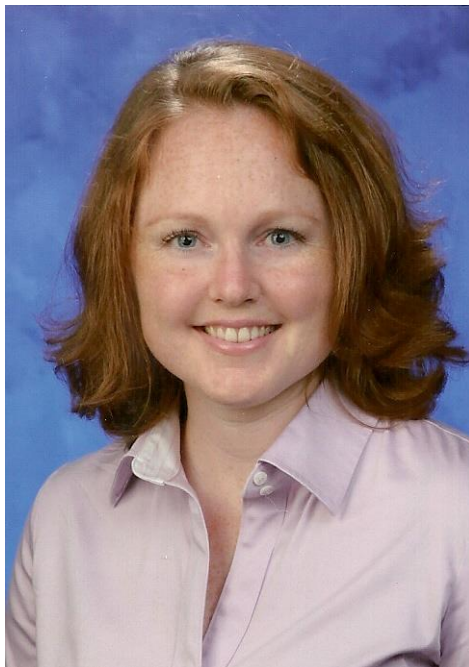

California Department of Public Health Preventive Medicine Residents 2011-12

Dr. Cora Hoover obtained her MS/MD degree from the UC Berkeley/UCSF Joint Medical Program in 2000. She trained as a family physician at Sutter Medical Center in Santa Rosa, CA, and has practiced family medicine since 2003 in safety net clinics in the Bay Area. She obtained her MPH from UC Berkeley in 2010. Dr. Hoover's practicum placement is at the San Mateo County Department of Public Health. Her research and public health practice interests include the health implications of policy decisions outside the health realm, chronic disease prevention, immigrant health, health disparities, and occupational health. She also has a strong interest in promoting the teaching of public health in medical education as seen by her co-authorship of a public health Problem-Based Learning case that became part of the Joint Medical Program curriculum.

*Stipend supported by a Health Resources and Services Administration grant awarded to the University of California, Davis.
Preceptor - Dr. Scott Morrow*

Dr. Heather Tindall Readhead is located at the Los Angeles County Department of Public Health. She completed her family medicine residency at Columbia University Medical Center/New York Presbyterian Hospital. She received her MD from Penn State University and her MPH in Community Health Sciences from the University of California at Los Angeles. Dr. Readhead has worked as a family physician in several primary care settings, including a residential drug and alcohol rehabilitation program and a community health center serving an inner-city Latino immigrant community. Prior to pursuing her medical and public health training, she taught science at a public middle school in Los Angeles County. Her interests include health policy, evidence-based medicine and public health practice, family planning, communicable disease control, improving health disparities, and public health education for physicians and other providers. Her goals include a public health career and participation in academic medicine as both a preventive medicine and family medicine physician.

*Stipend supported by a Health Resources and Services Administration grant awarded to the University of California, Davis.
Preceptor - Dr. Jeffrey Gunzenhauser*

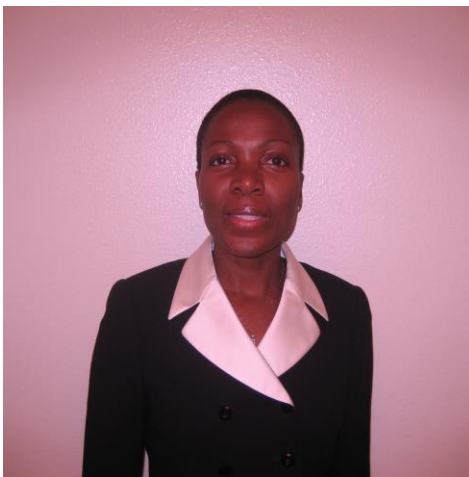

California Department of Public Health Preventive Medicine Residents 2010-11

Dr. Benjamin Bristow is located at the Los Angeles County Department of Public Health. He received his MD and MPH in Epidemiology from the University of California at Los Angeles. He also received his Diploma in Tropical Medicine and Hygiene (DTM&H) from the London School of Hygiene and Tropical Medicine. Dr. Bristow has worked as an expedition medic in Nicaragua and as a volunteer physician in Malawi and Guatemala. His previous research has focused on health disparities related to congenital cytomegalovirus infection in the United States. His interests include communicable disease control, especially concerning the relationship between poverty and tropical infectious diseases, as well as, public health emergency preparedness for vulnerable populations. His goals include advanced training in applied epidemiology, participating in global health field work and a career in public health within the State of California.

*Stipend supported by a Health Resources and Services Administration grant awarded to the University of California, Davis.
Preceptors - Dr. Ellen Alkon, Dr. Jeffrey Gunzenhauser and Dr. Alonzo Plough*

Dr. Marie Denise Green obtained her medical degree from the "Universidad Autonoma Metropolitana" of Mexico and was trained as a general pediatrician at Flushing Hospital Medical Center in New York. Dr. Green received her MPH degree in community-oriented primary care from George Washington University. Dr. Green has great interest in community involvement and empowerment and has participated in various researches involving underserved and immigrant populations. Her goal is to work at a community level within California to help strengthen our public health system. She is located at the San Diego Public Health Department.

*Stipend support by the Public Health & Health Services Block Grant.
Preceptor - Dr. Wilma Wooten*

California Department of Public Health Preventive Medicine Residents 2009-10

Dr. Tanya Phares is located at the Los Angeles County Department of Public Health. She received her D.O. from Western University of Health Sciences and her MPH in International Health from Tulane School of Public Health & Tropical Medicine. Dr. Phares has served as a research fellow at the CDC with the Division of Reproductive Health and the Pregnancy Risk Assessment Monitoring System (PRAMS). Her previous research has focused on health disparities and health behavior in maternal health. Her interests include women's reproductive health, international health and maternal & child health. Her goals include working as a medical director in a local health department.

Stipend support by the Los Angeles County Department of Public Health. Preceptors - Dr. Ellen Alkon and Dr. Bob Kim-Farley

California Department of Public Health Preventive Medicine Residents 2008-09

Dr. Byron Kennedy is located at the CDPH Tobacco Control Branch in Sacramento. Dr. Kennedy received his MD and PhD in Chronic Disease Epidemiology from Yale University and completed his internship in Family Medicine at Georgetown University. Dr. Kennedy will be focusing on gaining experience in public health policy, administration and research within Tobacco Control. He is interested in chronic disease and has published extensively on cardiovascular disease.

Stipend support by the CDPH Tobacco Control Branch and the Public Health and Health Services Block Grant. Preceptors - Dr. Neal Kohatsu, April Roeseler, RN, MPH

Dr. Jillian Martin is located at the Los Angeles County Department of Public Health. She received her MD from Boston University and her MPH from San Diego State University. Dr. Martin previously worked as a General Medical Officer in the US Navy and Marines, in which she was on active duty in Indonesia and Iraq. Dr. Martin will be focusing on public health policy, administration and research. She is interested in obesity and chronic disease prevention, as well as quality assurance.
